

Category: Best Sustainability Program

Description: This award honors excellence and innovation in a new sustainability program, project, or initiative that exemplifies one or more of the three key pillars of sustainability:

- Economic viability
- Environmental protection
- Social equity

Programs, projects, and initiatives may include, but are not limited to: green facility operations, reduction of carbon footprint initiatives, community, and stakeholder support, diversity and inclusion programs for both visitors and employees, and more.

Criteria:

- A clear understanding of the thought process, strategy, and execution of the program
- Demonstration of the effectiveness of the approach includes, but is not limited to:
 - Program materials
 - Program delivery methods
 - Any other supporting documentation
- Evidence of how the program has succeeded including, but not limited to:
 - Metrics
 - Return on investment (ROI)
 - Testimonials
 - Case studies
 - Any other supporting documentation
- Results related to program such as:
 - Impact for the organization
 - Other forms of accountability

Application Materials

- Preparedness to answer questions about your project, program or initiative, including but not limited to overview, description, delivery methods, internal and external impacts, and more.
- A logo and signature image for your facility, as well as any other supporting materials.
- A video (five(5) minute maximum length) highlighting your program, project or initiative
- Any additional support materials highlighting your program, project, or initiative
